At teething time — contentment!

THE fretfulness associated with teething time gives place to contentment if you give baby "Ovaltine" Rusks to bite upon. They assist the tiny teeth through the gums and the comfort thus afforded removes the cause of baby's discontent.

"Ovaltine" Rusks continue their good work as baby grows older. Their very deliciousness will always give pleasure, but even more important is their value in encouraging mastication, which in turn ensures proper development of jaws and teeth and lays the foundation of a sound digestion.

"Ovaltine" Rusks are made from the finest wheaten flour, to which is added a proportion of delicious "Ovaltine." Adults appreciate their crisp freshness. For chota hazri, early lunch and afternoon tea, they are ideal. They are particularly acceptable to invalids and to the aged, being easily assimilable and readily digested.
